

Post Implementation Evaluation Report

Document Imaging Project – Health Policy Authority

Project Dates: 9/2007 through 1/2010

Project Cost: \$419,378

Project Objectives:

- KHPA departments will utilize a single vendor for imaging services under a single contract.
- Integrate with existing business applications that exist in the Finance and Operations. Presumptive Medical Disability Team and HealthWave Clearinghouse departments.
- Allow for future expansion providing users with simple electronic access to documents, records and information streamlining the process of managing documents and information.
- Manage all unstructured documents.
- Improve productivity and efficiency.
- Documents will flow electronically through a workflow process thus avoiding duplication of work and potential bottlenecks.
- Reduce paper related cost, including paper stock, printing expenses, storage space, and office equipment.
