

Post Implementation Evaluation Report

Kansas Outdoor Automated Licensing System – Wildlife and Parks

Project Dates: 7/2004 through 5/2008

Project Cost: \$217,150

Project Objectives:

- implement a fully automated online sales system
- provide customers with an opportunity to purchase permits online (24/7)
- elimination of bonding requirements
- elimination of charging an erroneous sales amount
- making it more attractive for vendors to sell all of our licenses and permits
- better sales and revenue accounting
- development of a comprehensive database of customers
- elimination of printed license and permit books
